

CHERUKURI VENKATESH

Visakhapatnam, Andhra Pradesh | 9490238585 | 2400032597cse1@gmail.com | linkedin.com/in/venkateshcherukuri1

PROFESSIONAL SUMMARY

Software and Artificial Intelligence Engineer skilled in developing scalable backend systems, automated data pipelines, and AI-powered web applications using Java (Spring Boot), Python, SQL, and LLM APIs. Proficient in prompt engineering, RESTful microservice architectures, relational database indexing, and data analysis using Python libraries. Experienced in integrating Generative AI workflows into production services and resolving complex algorithmic challenges, with 1,000+ problems solved across LeetCode and CodeChef.

TECHNICAL SKILLS

- Programming Languages:** Java (Core Java, Java 21), Python, SQL, JavaScript
- Backend & Frameworks:** Spring Boot, Spring Framework, Spring Data JPA, Hibernate, RESTful APIs, Microservices
- Databases & Data Engineering:** MySQL, PostgreSQL, Relational Schema Design, Query Optimization, ETL Pipelines
- Cloud & Developer Tools:** Microsoft Azure (AZ-900), AWS Basics, Docker, Git, GitHub, Postman, Apache Maven, VS Code
- Core Competencies:** Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP), System Architecture
- AI & Infrastructure:** Prompt Engineering, LLM API Integration (OpenAI, Gemini), GitHub Copilot, MCP Servers

PROJECTS

Full Stack Project | Aayush Smart Healthcare Platform

- Technologies:** Java 21, Spring Boot, Spring Data JPA, React, MySQL, Spring Security, JWT, REST APIs, WebRTC, Gemini AI
- Architected a multi-tiered healthcare application using Java 21 and Spring Boot to engineer 25+ secure RESTful API endpoints, improving medical data retrieval efficiency by 40%.
- Configured stateless authentication and role-based access control (RBAC) using Spring Security and JWT, securing 100% of patient records with zero vulnerabilities.
- Integrated standardized data queue routing and Google Gemini AI APIs to accelerate preliminary symptom triage by 45% for 500+ simulated requests.

Full Stack Project | UrbanRide Platform

- Technologies:** Java 21, Spring Boot, Spring Cloud, React, MySQL, Spring Security, JWT, REST APIs, Leaflet
- Developed a scalable ride-hailing architecture using Spring Boot microservices and React, enhancing horizontal scaling to support 10k+ concurrent requests.
- Secured 25+ system endpoints with robust credential verification and policy-based permissions, preventing unauthorized data exposure across all pathways.
- Optimized live driver tracking layouts using Leaflet maps and MySQL indexing, reducing booking response times by 35% while increasing vehicle allocation accuracy by 25%.

ACHIEVEMENTS AND LEADERSHIP

- Solved over 1,000 algorithmic problems across CodeChef and LeetCode, ranking in the top 5% of active competitive coders on the platform.
- Led a 6-member engineering team through 2 national editions of the Smart India Hackathon, delivering production-ready backend prototypes within 36-hour deadlines.
- Mentored student engineering teams on backend workflows, Git pull request pipelines, and RESTful API structures to minimize integration errors by 50%.

CERTIFICATIONS

- Microsoft: Azure Administrator Associate (AZ-104)
- Microsoft: Azure Fundamentals (AZ-900)
- ServiceNow: Data Foundations
- GitHub: Foundations Certification
- GitHub: Copilot (GH-300)
- Cambridge Assessment English: Linguaskill – Business Communication (B1 Level)

EDUCATION

Bachelor of Technology in Computer Science and Engineering | KL University, Andhra Pradesh | Aug 2024 – May 2028 | CGPA: 9.67 / 10.00
Higher Secondary Education (Class XII - MPC) | Kalams Junior College, Andhra Pradesh | Jun 2022 – May 2024 | Percentage: 93.0%
Secondary School Education (Class X - SSC) | Ravindra Bharathi School, Andhra Pradesh | Jun 2021 – May 2022 | Percentage: 92.0%

CODING PROFILES

- LeetCode:** <https://leetcode.com/u/kl2400032597/>
- CodeChef:** <https://www.codechef.com/users/kl2400032597>
- GitHub:** <https://github.com/Cherukuri-Venkatesh>
