

CHERUKURI VENKATESH

JAVA BACKEND DEVELOPER

+91 9490238585 | 2400032597cse1@gmail.com | [LinkedIn](#) | Visakhapatnam, Andhra Pradesh, India

PROFESSIONAL SUMMARY

Results-driven Java Backend Developer with strong expertise in Java, Spring Boot, Spring Framework, RESTful APIs, MySQL, and SQL. Proficient in designing scalable backend architectures, relational database schemas, stateless JWT authentication, and data-driven solutions using Python and SQL. Strong foundation in Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP), and algorithmic problem solving with 1000+ competitive programming problems solved across CodeChef, LeetCode, and HackerRank.

TECHNICAL SKILLS

Programming Languages: Python, Java, SQL

Backend Technologies: Spring Boot, Spring Framework, Spring MVC, Spring Data JPA, Hibernate, RESTful APIs, Microservices Architecture

Core Concepts: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), Multithreading, System Design, Problem Solving

Databases & Cloud: MySQL, PostgreSQL, Relational Database Modeling, Query Optimization, Microsoft Azure (AZ-900), AWS

Authentication & Security: Spring Security, JWT (JSON Web Tokens) Authentication, Role-Based Access Control (RBAC)

Web Technologies: React.js, HTML5, CSS3, Responsive Web Design, WebRTC

Developer Tools & Platforms: Git, GitHub, GitHub Copilot, Postman, Maven, Docker Basics, VS Code, IntelliJ IDEA

PROJECTS

Aayush – Unified Healthcare Ecosystem (Full Stack Java Application)

Technologies: Java, Spring Boot, Spring Data JPA, React.js, MySQL, Spring Security, JWT, RESTful APIs, WebRTC, Gemini AI

- Architected and developed a scalable multi-tier healthcare backend using Java, Spring Boot, and MySQL, delivering 25+ RESTful API endpoints for Electronic Health Records (EHR), digital prescriptions, and diagnostic lab reports.
- Implemented robust stateless security using Spring Security and JWT-based Role-Based Access Control (RBAC) across 4 user roles (Admin, Doctor, Patient, PHC Center), securing sensitive patient health information.
- Integrated real-time appointment scheduling, doctor queue dispatching, WebRTC peer-to-peer teleconsultations, and Google Gemini AI API for intelligent automated symptom assessment and doctor recommendations.

Smart Travel Booking Engine (Full Stack Web Application)

Technologies: Python, Java, Spring Boot, JavaScript, MySQL, HTML5, CSS3, REST APIs, Responsive Web Design

- Developed an integrated multi-modal travel booking platform consolidating flight, train, and hotel reservations into a centralized interface with real-time itinerary management.
- Engineered RESTful API services and interactive UI components in HTML5/CSS3/JavaScript, optimizing API response payloads and achieving sub-second search latency across booking catalogs.
- Designed normalized MySQL database schemas with optimized indexes and transactional integrity, ensuring 100% data consistency for user bookings and payment status transitions.

ACHIEVEMENTS & LEADERSHIP

- 1000+ Problems Solved on CodeChef:** Demonstrated strong algorithmic problem-solving, advanced data structure optimization, and competitive programming excellence.
- Smart India Hackathon Participation (2x Team Lead):** Led a 6-member engineering team across 2 national hackathon editions; spearheaded backend system architecture, API development, and product demos.
- Academic Hackathons & Technical Leadership:** Served as Technical Team Lead across university hackathons, coordinating full-stack software implementation, system design, Git workflows, and final project delivery.

CERTIFICATIONS

- Microsoft Certified: Azure Fundamentals (AZ-900)** — Microsoft (Cloud Concepts, Security, Architecture & Services).
- ServiceNow Certified: Data Foundations** — ServiceNow (Configuration Management, Schema Design & Data Models).
- GitHub Copilot Certification (GH-300)** — GitHub (AI-Assisted Software Development & Code Acceleration).
- Python Essentials 1 & 2** — Cisco Networking Academy (Python Programming, OOP & Data Structures).
- Cambridge Linguaskill English Language Certification** — Cambridge (Business Communication, B1 Level).

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science and Engineering — KL University, AP (2024 – 2028 Expected)

Cumulative Grade Point Average (CGPA): **9.67 / 10.00** | Coursework: Data Structures & Algorithms, DBMS, OOP, Java, Python, SQL, Operating Systems

Intermediate (Class XII - MPC) — Kalams Junior College, Andhra Pradesh (2022 – 2024)

Percentage: **93.0%** | Major Subjects: Mathematics, Physics, Chemistry

Secondary School Certificate (Class X - SSC) — Ravindra Bharathi School, AP (2021 – 2022)

Percentage: **92.0%** | Core Curriculum: Mathematics, Science, Computer Fundamentals
